

Military & Veterans Enrollment & Transition Services
Post-9/11 GI Bill® (Chapter 33)
Flight Training Memorandum of Understanding

Under the Post 9/11 GI Bill®, the maximum tuition and fees at a private institution of higher learning is payable based on the annual cap set by the Department of Veterans Affairs (DVA) and on the student's eligibility percentage tier.

The annual cap, along with the Yellow Ribbon Program **(for those who qualify)** should cover the full cost of tuition and mandatory fees (excluding flight fees). Therefore, the student is responsible for paying for flight activities at the time each activity is attempted.

Although the maximum Post 9/11 GI Bill® benefit is not sufficient to cover the cost of flight activity fees, the MyVETS Office is still required to report all costs associated with a veteran's program. In order to remain in compliance with DVA regulations, students must notify their ERAU Veterans' Program Administrator:

- When starting a flight course
- Completing a flight course
 - Courses must be completed within prescribed enrollment period
 - IP (in-progress) grade (course must be completed within 90 days of the last day of the term)
- Withdrawal from the course. (The DVA may charge the student with an overpayment and the student will be responsible to repay the DVA for a portion, if not all funds received for the course)
- DVA will not authorize or pay for charges which exceed the FAA curriculum (minimum hours required in course syllabus are the maximum allowed for VA payments).

Licensing and Certification Tests Reimbursements

The DVA will reimburse a student for the cost of each exam fee up to \$2,000.00. The student is required to pay these fees upfront and request reimbursement directly from the DVA.

Important: Individuals are charged one (1) month of entitlement for each licensing and certification test submitted for reimbursement regardless of the test cost.

This is to acknowledge that I have received counseling concerning the rules governing receipt of the Post 9/11 GI Bill® (Chapter 33) for flight training/courses.
