

**Aeronautical Science**  
**(Students who have not completed Private Pilot License, with an accelerated flight block starting in Summer B)\***  
**Typical First Semester Schedule for Fall**

*\*If you have completed any FAA certifications, please contact your advisor for help with selecting the appropriate AS course for registration.*

<u>Course</u>	<u>Course Title</u>	<u>Credits</u>
<b>Please register for the following courses.</b>		
MA 4 (4 credits), MA 6, MA 111, or MA 112	Math course based on results of <a href="#">ALEKS PPL</a>	3 or 4
COM 18, COM 20, COM 122, or COM 122NNS	Communication course based on results of <a href="#">CompEval</a>	3
<p><b>Please Note:</b> You will not be able to register for communication or math classes without completing the CompEval and the ALEKS PPL unless you have posted credit through Advanced Placement, International Baccalaureate, dual enrollment, or transfer credit.</p> <p>It is suggested that you take the CompEval and ALEKS PPL placements while you wait for your AP, IB, or other credit to post. Once new credit is added to your academic record you can self-register for the higher class or you can contact your academic advisor for assistance.</p> <p>If you flight related questions, please contact the Flight Department at <a href="mailto:hergetb@erau.edu">hergetb@erau.edu</a> or <a href="mailto:coxj@erau.edu">coxj@erau.edu</a>. Questions about other courses can be sent to the appropriate advisor.</p>		
<b>Please register for <u>two</u> or <u>three</u> of the following courses. Overall, you should be taking between 14-16 credits in the fall.</b>		
PSY 101	Introduction to Psychology	3
WX 201	Survey of Meteorology	3
BA 201	Principles of Management	3
CS 120HYB	Introduction to Computing in Aviation	3
<b>Total Credits for semester</b>		<b>14-16</b>

See notes on scheduling classes on page 2.

If you need assistance, please contact your advisor listed in your **Campus Solutions Student Homepage**  
**> Academic Advising**

## Notes on scheduling classes

Students can register for classes using the Class Search and Enroll screen in Campus Solutions. They can also use the Schedule Planner tool found through Campus Solutions to assist in the scheduling process. Step by step directions for using either tool can be found at:

[daytonabeach.erau.edu/admissions/applied-students/register/index.html](http://daytonabeach.erau.edu/admissions/applied-students/register/index.html)

For MA 4, MA 6, COM 18, COM 20 courses, please note that a grade of "C" or higher is required to pass and move onto the subsequent course. Please also note that these courses are not degree applicable.

To be on track to graduate in four to five years, you should consider taking 15-16 credits per semester. While a student only needs to take a minimum of 12 credits to be considered a full time student during the Fall or Spring, any student can take up to 16 credits at the same tuition cost as taking 12 credits.

Students flying to earn their private pilot certificate during the summer should expect to be at Embry-Riddle every day during the Summer B session **and** during the two week period between the end of Summer B and the start of Fall classes. Students will be able to focus on academic courses during the Fall semester since they have already completed AS 121 & ASC 101 and a majority of the learning/flying needed for FA 121. You can find information about the benefits of participating in Think SUMMER here:

[daytonabeach.erau.edu/thinksummer](http://daytonabeach.erau.edu/thinksummer)

If you placed in MA 4 or MA 6 on the ALEKS PPL placement evaluation, you are strongly encouraged to use the interactive learning modules on the ALEKS website prior to the start of fall classes. Students have the opportunity to take a second or third attempt at the placement evaluation after completing required practice modules on the ALEKS website. If a student practices their math skills and then places into a higher-level math on their second or third attempt at the placement evaluation, that student will have the opportunity to register for a higher-level math course for the Fall semester.

You can find information about Aeronautical Science course requirements at:
