

## Still Exploring College of Arts & Sciences

### Typical First Semester Schedule

[Return to previous page](#)

<u>Course</u>	<u>Course Title</u>	<u>Credits</u>
<b><i>Please register for the following courses.</i></b>		
UNIV 101	College Success	1
Computer Science/Information Technology course	BA 120 Introduction to Computer Based Systems <b>or</b> CS 118 Fundamentals of Computer Programming <b>or</b> CYB 235 Computer and Network Technologies	3
COM 18, COM 20, COM 122 <b>or</b> COM 122NNS	Communications course based on results of <a href="#">CompEval</a>	3
MA 4 ( <b>4 credits</b> ), MA 6, MA 111, MA 112, MA 120, MA 143, MA 220, <b>or</b> MA 241*	Math course based on results of <a href="#">ALEKS PPL</a>	3 <b>or</b> 4
Lower Level Social Science course	EC 200 An Economic Survey <b>or</b> EC 210 Microeconomics <b>or</b> EC 211 Macroeconomics <b>or</b> PSY 101 Introduction to Psychology <b>or</b> SS 110 World History <b>or</b> SS 115 Introduction to International Relations <b>or</b> SS 120 U.S. History	3
<p><b><i>Please Note:</i></b> You will not be able to register for communications or math classes without completing the <i>CompEval</i> and the <i>ALEKS PPL</i> unless you already have credit through <i>Advanced Placement</i>, <i>International Baccalaureate</i>, <i>dual enrollment</i>, or <i>transfer credit</i> <u>and</u> that credit has already been posted to your academic record.</p> <p><i>It is suggested that you take the CompEval and ALEKS PPL placements while you wait for your AP, IB, or other credit to post. Once new credit is added to your academic record you can self-register for the higher class or you can contact your academic advisor for assistance.</i></p>		
<b>Total Credits for semester</b>		<b>13 – 14**</b>

See notes on scheduling classes on page 2.

\*Your ALEKS PPL placement result will help you determine which of the courses listed below you should take. If you place in MA 4 or MA 6 you should take this course regardless of the major in which you are interested. Otherwise, if interested in Communication or Human Factors Psychology, you should take either MA 111 or MA 112. If interested in Astronomy and Astrophysics, Computational Mathematics, Engineering Physics, or Space Physics you should take either MA 143 or MA 241. If interested in Aerospace Physiology, Global Conflict Studies, Homeland Security, or Interdisciplinary Studies, you should take either MA 120 or MA 220.

\*\*If you register for the courses above (for a total of 13 credits) and want to consider taking one other course, you can contact your advisor to help determine which course is best for you based on your academic interests and plans.

If you need assistance, please contact your advisor listed in your **Campus Solutions Student Homepage > Academic Advising**

## Notes on scheduling classes

Students can register for classes using the Class Search and Enroll screen in Campus Solutions. They can also use the Schedule Planner tool found through Campus Solutions to assist in the scheduling process. Step by step directions for using either tool can be found at:

[daytonabeach.erau.edu/admissions/applied-students/register/index.html](http://daytonabeach.erau.edu/admissions/applied-students/register/index.html)

To be on track to graduate in four to five years, you should consider taking 15-16 credits per semester. While a student only needs to take a minimum of 12 credits to be considered a full time student during the fall or spring, any student can take up to 16 credits at the same tuition cost as taking 12 credits.

If you placed in COM 20 Fundamentals of Communication, MA 4 Basic and Intermediate Algebra, or MA 6 Intermediate Algebra, you can consider taking one of these courses for free during the Summer B term as part of the Think SummER program. A student would need to be registered for at least six credits during Summer B to be able to take one of the courses listed above for free.

If you are unable to attend classes during the Summer B term and placed into MA 4 or MA 6 on the ALEKS PPL placement exam, you are encouraged to use the interactive learning modules on the ALEKS website prior to retaking the placement exam. If you place into a higher course on the second or third attempt at the placement exam, you will be able to register for that higher course for the fall instead.

Taking one or more summer courses and/or using ALEKS PPL to retest for math is encouraged because the courses listed above are designed to prepare students for the first required Communication and Mathematics courses in the College of Arts and Sciences.
